Post #1

Anybody have a template for the Sony S600?

Thanks

Scott

Scott,  
A P41 or S40 is both the same cut outs. Let me know if you don't have either of these.

Mark

**Thanks Coyote**

I'm glad you put both up since now I can see that the flash for both cameras are not located in the same spot.

Everybody says the Sony p41 and Sony s600 are the same but evidently they are not!

**yetinme,**

If you have one for the Sony S600 please send it to me via email to **corlen@rogers.com**

Thanks

Scott

buckboy.. They might not be exactly the same, but if you are using say a 1" hole for the flash it should cover both...

I love this website!!!
